

**"THE MERIT OF ORIGINALITY
IS NOT NOVELTY,
IT IS SINCERITY."**

Thomas Carlyle
19th century Scottish
philosopher and writer

At LUMENLAB

LUMENLAB will work with the world's most talented designers, injecting fashion and culture into every piece of durable product.

We believe that design is not a privilege for the minority. The beauty of design lies in people's love for their life and the willingness to convey such love through products.

We hope that the affordable prices and various products can help the users experience the great pleasure of design.

DESIGNERS

ANON PAIROT

Anon Pairot is a Thai artist and designer based in Bangkok. In his design work, he focuses on traditional Thai construction techniques and materials.

David Derksen is a Dutch designer that gained international fame with his award winning copper lights in 2012. He has worked with renowned brands such as Fred Perry and Hugo Boss, and galleries such as VIVID.Matter and Bensimon.

LAURIE ROIJACKERS

Laurie Roijackers is a young designer from Eindhoven with a fresh view on lighting design. Her playful ideas turn into minimalistic lights that often incorporate clever constructional elements.

JURRE GROENENBOOM

An entrepreneurial and socially involved Dutch designer, Jurre Groenenboom is designing products as well as ventures with people at its core. His strength is his diversity and ability to adapt to the user's mind-set.

OLAF WELLER

Olaf Weller is a Dutch designer who became successful with his No. 19 lamp - a fresh twist to the current industrial trend.

He likes to make archetypical, conceptual and elementary designs.

HIVE

The **Hive** collection has a stunning unconventional honeycomb pattern that spreads a beautiful geometric pattern of light across its surroundings.

ARC KD

These Arc lights are unique in their 'knock down' construction. Similar in size to existing arc lights, but in a box that is 80% smaller. This means one 40 foot HC container can hold 1400 pieces in stead of 300. The cord, available in any colour, becomes an eyecatcher that gives the design its distinctive colour accent.

FORGE

FORGE

These metal lamps intrigue with their molten, almost liquid surface. The reflection of the light in combination with the metal shades is amazing. Different colors are made for different interiors and styles.

WICKLE

A great example of form follows function. A piece of irresistible Dutch design that is easily adjustable to any ceiling height due to its simple, but clever shape.

An entrepreneurial and socially involved Dutch designer, Jurje Groenenboom is designing products as well as ventures with people at its core. His strength is his diversity and ability to adapt to the user's mind-set.

PULP

At LUMENLAB we like to experiment with new materials. This 100% recycled paper pulp is combined with contrasting materials like metal and braided wire. The result is a striking, contemporary light.

Nature

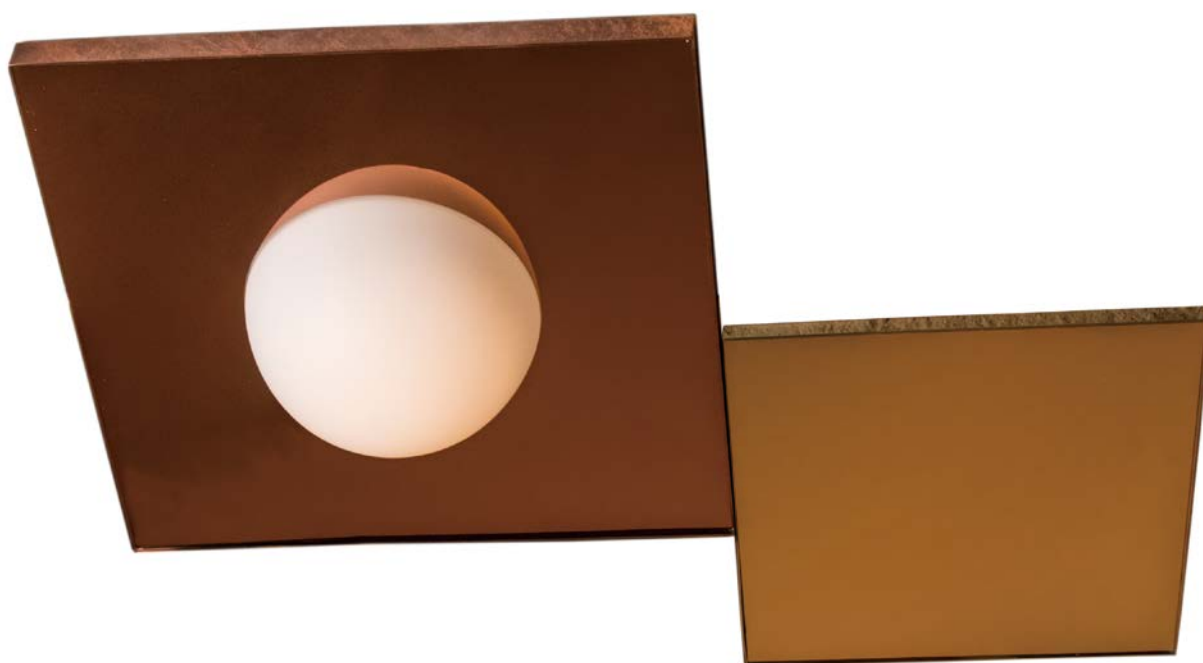

ø46*H200 cm
PPL-14002

HOLO

This Holo is David's interpretation of what a ceiling light could be. The reflective surface gives the illusion of an illuminated ball suspended in mid-air. The geometric shapes open up possibilities for patterning and visually expanding a room. David Derksen is a Dutch designer that gained international fame with his award winning copper lights in 2012.

DISH

DISH

Dish is what we call 'sculptural lighting'. Its big eye-catcher is the huge dish - surprisingly thin - that is intricately spun from a single piece of metal. Amsterdam-based Douwe Jacobs first entered the design scene with his innovative start-up Flux Furniture. Currently a founding member of design collective APE amsterdam, he is also IUMENLAB's creative director.
